

FACADE CLEANER SELECTION GUIDE

PROPERTIES AND TECHNICAL INFORMATION

BIOkleen Facade Cleaner (pH approx. 11.7) can be used on all the materials listed below. We recommend Facade Cleaner for cleaning sensitive surfaces.

BIOkleen Facade Cleaner is approved by SIS environmental marking and bears the SWAN mark.

Use **Facade Cleaner Stone** or **Facade Cleaner Pro** for heavily soiled facades. The following list explains which

product to use. Only in exceptional cases should **Facade Cleaner Stone** or **Facade Cleaner Pro** be used on facade materials other than those recommended, e.g. using Facade Cleaner Stone to remove rust spots from marble. In this case, the product should be used with the greatest caution so as not to damage the material.

FACADE CLEANER STONE	FACADE CLEANER	FACADE CLEANER PRO
<p>pH approx. 1</p> <p>DO NOT USE ON GLAZED OR POLISHED MATERIALS CONTAINING CALCIUM CARBONATE, E.G. MARBLE OR LIMESTONE</p> <p><i>Can be used on:</i></p> <ul style="list-style-type: none"> • Brick • Tile • Clinker • Quartz sandstone • Granite • Unpolished concrete 	<p>pH approx. 11.7</p> <p>CAN BE USED ON GLAZED OR POLISHED MATERIALS AND ON ALL PAINTED SURFACES</p> <p><i>Can be used on:</i></p> <ul style="list-style-type: none"> • Limestone • Marble • Brick • Tile • Clinker • Quartz sandstone • Granite • Aluminium • Plate • Painted surfaces • Plaster • Concrete 	<p>pH approx. 13</p> <p>DO NOT USE ON MATT PAINTED SURFACES THAT ARE NOT TO BE PAINTED OVER.
